securities rated. According to the DBRS rating system, an obligation rated “BBB” is of adequate credit quality. The capacity for the payment of financial obligations is considered adequate, but of lesser credit quality than A. The obligor may be vulnerable to future events. The ratings from AA to C contain subcategories (high) or (low) to show relative standing within the categories. The absence of either a (high) or (low) designation indicates the rating is in the middle of the category. DBRS uses “rating trends” for its ratings in, among other areas, the corporate finance sector. DBRS’ rating trends provide guidance in respect of DBRS’ opinion regarding the outlook for the rating in question, with rating trends falling into one of three categories: “Positive”, “Stable” or “Negative”. The rating trend indicates the direction in which DBRS considers the rating may move if present circumstances continue, or in certain cases as it relates to the corporate finance sector, unless challenges are addressed by the issuer. In general, DBRS assigns rating trends based primarily on an evaluation of the issuing entity or guarantor itself, but may also include consideration of the outlook for the industry or industries in which the issuing entity operates giving consideration to developments that could positively or negatively impact the sector or the issuer’s debt position within the sector. According to DBRS, it is often the rating trend that reflects the initial pressures or benefits of a changing environment rather than an immediate change in the rating. A “Positive” or “Negative” trend assigned by DBRS is not an indication that a rating change is imminent, but represents an indication that there is a greater likelihood that the rating could change in the future than would be the case if a “Stable” trend was assigned.

Credit ratings are intended to provide investors with an independent assessment of the credit quality of an issue or issuer of securities and do not speak to the suitability of particular securities for any particular investor. The credit rating assigned to the Notes may not reflect the potential impact of all risks on the value of the Notes. A rating is therefore not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by S&P. Prospective investors should consult S&P with respect to the interpretation and implications of the rating.

BPY has paid customary rating fees to S&P and DBRS in connection with the above-mentioned ratings and the Issuer will pay customary rating fees to S&P and DBRS in connection with the confirmation of such ratings for purposes of the offering of the Notes. In addition, BPY has made customary payments in respect of certain other services provided to BPY by S&P and DBRS during the last two years.

EARNINGS COVERAGE RATIOS OF BPY

BPY's borrowing cost requirements for the 12 months ended December 31, 2017 and June 30, 2018 amounted to \$2,079 million and \$2,159 million, respectively, after giving effect to (i) the Offerings and (ii) the issuance, repayment, redemption or other retirement of all financial liabilities since the end of the period as if such event occurred at the beginning of the period (the "Adjustments").

BPY's profit or loss attributable to unitholders before borrowing costs and income tax for the 12 months ended December 31, 2017 and June 30, 2018 was \$2,560 million and \$3,476 million, respectively, which is

approximately 1.1 times and 1.4 times BPY's borrowing cost requirements for the respective periods, after giving effect to the Adjustments.

BPY's borrowing cost requirements for the 12 months ended December 31, 2017 and the six months ended June 30, 2018 amounted to \$2,688 million and \$1,391 million, respectively, after giving effect to the Adjustments and the Transaction.

BPY's profit or loss attributable to unitholders before borrowing costs and income tax for the 12 months ended December 31, 2017 and the six months ended June 30, 2018 was \$1,990 million and \$2,312 million, respectively, which is approximately 0.7 times and 1.5 times BPY's borrowing cost requirements for the respective periods, after giving effect to the Adjustments and the Transaction.

BPY's earnings coverage ratio for the 12 months ended December 31, 2017 is after giving effect to the Adjustments and the Transaction is less than one-to-one. In order to achieve an earnings coverage ratio of one-to-one for the 12 months ended December 31, 2017 after giving effect to the Adjustments and the Transaction, BPY would need to have earned an additional \$999 million.

CREDIT RATINGS

The Notes are expected to be assigned a rating of "BBB-" by S&P and "BBB (stable outlook)" by DBRS.

S&P's credit ratings are on a long-term debt rating scale that ranges from "AAA" to "D", which represents the range from highest to lowest quality of such securities rated. The "BBB" rating category is the fourth highest used by S&P and is one of eleven rating categories used by S&P for long-term debt obligations. In addition, the "plus (+)" and "minus (-)" signs indicate relative strength within the major rating categories. According to the S&P rating system, an obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

DBRS' credit ratings are on a long-term debt rating scale that ranges from AAA to D, which represents the range from highest to lowest quality of such securities rated. According to the DBRS rating system, an obligation rated "BBB" is of adequate credit quality. The capacity for the payment of financial obligations is considered adequate, but of lesser credit quality than A. The obligor may be vulnerable to future events. The ratings from AA to C contain subcategories (high) or (low) to show relative standing within the categories. The absence of either a (high) or (low) designation indicates the rating is in the middle of the category. DBRS uses "rating trends" for its ratings in, among other areas, the corporate finance sector. DBRS' rating trends provide guidance in respect of DBRS' opinion regarding the outlook for the rating in question, with rating trends falling into one of three categories: "Positive", "Stable" or "Negative". The rating trend indicates the direction in which DBRS considers the rating may move if present circumstances continue, or in certain cases as it relates to the corporate finance sector, unless challenges are addressed by the issuer. In general, DBRS assigns rating trends based primarily on an evaluation of the issuing entity or guarantor itself, but may also include consideration of the outlook for the industry or industries in which the issuing entity operates giving consideration to developments that could positively or negatively impact the sector or the issuer's debt position within the sector. According to DBRS, it is often the rating trend that reflects the initial pressures or benefits of a changing environment rather than an immediate change in the rating. A "Positive" or "Negative" trend assigned by DBRS is not an indication that a rating change is imminent, but represents an indication that there is a greater likelihood that the rating could change in the future than would be the case if a "Stable" trend was assigned.

Credit ratings are intended to provide investors with an independent assessment of the credit quality of an issue or issuer of securities and do not speak to the suitability of particular securities for any particular investor. The credit rating assigned to the Notes may not reflect the potential impact of all risks on the value of the Notes. A rating is therefore not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by S&P. Prospective investors should consult S&P with respect to the interpretation and implications of the rating.

BPY has paid customary rating fees to S&P and DBRS in connection with the above-mentioned ratings and the Issuer will pay customary rating fees to S&P and DBRS in connection with the confirmation of such ratings for purposes of the offering of the Notes. In addition, BPY has made customary payments in respect of certain other services provided to BPY by S&P and DBRS during the last two years.

RISK FACTORS

An investment in the Notes is subject to a number of risks. Before deciding to invest in the Notes, investors should consider carefully the risks set forth below, the risk factors in the accompanying Prospectus under “Risk Factors” and elsewhere in BPY’s Annual Report and in the other documents incorporated by reference in this Prospectus Supplement and the Prospectus, as updated by our subsequent filings with securities regulatory authorities in Canada.

A reduction in Brookfield’s interest in BPY, the General Partner or the Issuer will not necessarily result in a Change of Control under the terms of the Notes.

Pursuant to the terms of the Notes, the Issuer is obligated to make a Change of Control Offer (as defined below) to holders of Notes upon the occurrence of both a Change of Control and a Below Investment Grade Rating Event (each as defined below). A Change of Control includes the consummation of any transaction the result of which is that any person or group of persons acting jointly and in concert, other than Brookfield and/or one or more Affiliates (as defined in the Indenture) of Brookfield (or any of their respective successors), becomes the owner (directly or indirectly) of more than 50% of all issued and outstanding Voting Stock (as defined in the Indenture) of the Issuer or the General Partner, measured by voting power rather than number of shares. Accordingly, a future reduction in Brookfield’s direct or indirect interests in BPY, the General Partner or the Issuer will not necessarily trigger a Change of Control. As a result, if a sale of Brookfield’s Voting Stock, the General Partner or the Issuer results in a Below Investment Grade Rating, so long as no person or group of persons acting jointly and in concert, other than Brookfield and/or one or more Affiliates of Brookfield (or any of their respective successors), becomes the owner (directly or indirectly) of more than 50% of all issued and outstanding Voting Stock of the Issuer or the General Partner, measured by voting power rather than number of shares, the Issuer would not have an obligation to make a Change of Control Offer to holders of Notes.

Incurrence of Additional Indebtedness.

The Issuer and the Guarantors may incur additional indebtedness that may adversely affect their ability to meet their financial obligations under or in respect of the Notes. Although some of the agreements governing their existing indebtedness contain restrictions on the Issuer’s and the Guarantors’ ability to incur additional indebtedness, these restrictions are subject to a number of important qualifications and exceptions and the indebtedness they incur in compliance with these restrictions could be substantial.

The Issuer’s and the Guarantors’ obligations under or in respect of the Notes rank equally with all of their other unsecured senior indebtedness. The Issuer and the Guarantors may incur additional indebtedness in the future, which could have important consequences to holders of the Notes, including the following:

- they could have insufficient cash to meet their financial obligations, including their obligations under or in respect of the Notes;
- their ability to obtain additional financing for working capital, capital expenditures or general corporate purposes may be impaired; and
- a significant degree of debt could make them more vulnerable to changes in general corporate and industry conditions.

Credit Ratings.

The credit rating accorded to the Notes by the Rating Agencies is not a recommendation to purchase, hold or sell the Notes inasmuch as such ratings do not comment as to market price or suitability for a particular investor. There is no assurance that the ratings will remain in effect for any given period of time or that the ratings will not be revised or withdrawn entirely by the applicable Rating Agency in the future if, in its judgment, circumstances so warrant, and if any such rating is so revised or withdrawn, the Issuer is under no obligation to update this Prospectus Supplement. The reduction or downgrade of the ratings of the Notes may negatively affect the quoted market price, if any, of the Notes.

Redemption of Notes.

The Issuer may choose to redeem the Notes from time to time, especially when prevailing interest rates are lower than the interest rate borne by the Notes. If prevailing interest rates are lower at the time of redemption, a purchaser may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate that is greater than or equal to the interest rate on the Notes being redeemed. The Issuer's redemption right may also adversely impact a purchaser's ability to sell Notes as the optional redemption date or period approaches.

Refinancing Risks.

Given the current credit and economic conditions, the Issuer and Guarantors may be exposed to additional risks such as interest rates and refinancing risk, capital market risk and industry risk. Details associated with these risks can be found in BPY's Annual Report incorporated by reference in this Prospectus Supplement.

USE OF PROCEEDS

The net proceeds to the Issuer from the Offering, after deducting the Agents' fees and the estimated expenses of the Offering of C\$250,000, will be C\$498,339,000, excluding accrued interest on the Series 1 Notes to be paid by the purchasers of the Series 1 Notes in the amount of C\$12.8593973, and will be used for general corporate purposes.

All expenses relating to the Offering, including any compensation to Agents or underwriters, will be paid out of the proceeds from the sale of Notes and/or out of the Issuer's general funds. The Issuer and the Guarantors may, from time to time, issue debt instruments and incur additional indebtedness otherwise than through the issue of Notes under this Prospectus Supplement.

DESCRIPTION OF THE NOTES

The following description of the particular terms and provisions of the Notes supplements and, to the extent inconsistent therewith, replaces, the description of the Notes set forth in the Prospectus under "Description of Debt Securities", to which reference is hereby made. Other capitalized terms used and not defined in this Prospectus Supplement have the meanings ascribed to them in the Prospectus or in the Indenture, as the case may be. A copy of the Base Indenture is available on SEDAR and copies of the Series 1 Indenture and the Series 2 Indenture will be available on SEDAR once entered into, and at such time may be accessed electronically at www.sedar.com. The Notes will rank equally and ratably with all other unsubordinated and unsecured indebtedness of the Issuer, from time to time issued and outstanding, except as to sinking fund provisions applicable to different series of Debt Securities. The Indenture will not limit the aggregate principal amount of Debt Securities which may be issued thereunder and Debt Securities may be issued thereunder from time to time in one or more series up to the aggregate principal amount from time to time authorized by the Issuer for each series. The Issuer may, from time to time, without the consent of the holders of the Notes, provide for the issuance of Notes or other Debt Securities under the Indenture in addition to the C\$500,000,000 million aggregate principal amount of Notes offered hereby and any other Debt Securities previously issued.

The principal of and interest on the Notes will be payable in lawful money of Canada.

The Indenture will be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

The Issuer may from time to time, without the consent of the holders of the Notes, create and issue further notes having the same terms and conditions in all respects as the Notes being offered hereby, except for the issue date, the issue price and the first payment of interest thereon.

Form and Denomination

The Notes will be issued in fully-registered form only, in denominations of C\$1,000.00 and integral multiples thereof. The CUSIP/ISIN for the Global Notes for the Series 1 Notes is 11286ZAA2/CA11286ZAA27 and 11286ZAB0/CA11286ZAB00 for the Series 2 Notes.

Payment of Principal, Premium and Interest

As long as CDS or its nominee is the registered holder of a Global Note, CDS or its nominee, as the case may be, will be considered to be the sole owner of such Global Note for the purposes of receiving payments of interest on, premium, if any, on and principal of such Global Note. The Issuer expects that CDS or its nominee, upon receipt of any payment of principal, premium or interest in respect of a Global Note (less any taxes required by law to be deducted or withheld), will credit participants' accounts, on the date principal, premium, if any, or interest is payable, with payments in amounts proportionate to their respective interests in the principal amount of such Global Note as shown on the records of CDS or its nominee at the close of business on the second business day prior to the applicable interest payment date, with respect to the payment of interest, and at the applicable Maturity Date, with respect to the payment of principal or premium, if any. The Issuer also expects that payments of principal, premium, if any, and interest (less any taxes required by law to be deducted or withheld) by participants to the owners of beneficial interests in such Global Note held through such participants will be governed by standing instructions and customary practices, and will be the responsibility of such participants. The responsibility and liability of the Issuer in respect of Notes represented by a Global Note is limited to making, or causing to be made, payment of any principal, premium, if any, and interest (less any taxes required by law to be deducted or withheld) due on such Global Note to the Trustee on behalf of the registered holder of the Global Note.

Redemption and Repurchase

Series 1 Notes

The Series 1 Notes will be redeemable at the option of the Issuer prior to the Series 1 Maturity Date. The Series 1 Notes will be subject to redemption at the option of the Issuer on the applicable redemption date in whole or, from time to time, in part in increments of C\$1,000.00, at the applicable Redemption Price, as defined below, on notice given not more than 60 days nor less than 30 days prior to the date of redemption and in accordance with the provisions of the Series 1 Indenture.

“**Applicable Spread**” means 57.5 basis points.

“**Canada Yield Price**” means a price equal to the price of the Series 1 Notes (or the portion thereof to be redeemed) calculated to provide a yield thereon to the date that is one month prior to the Series 1 Maturity Date of such Series 1 Notes equal to the sum of the Government of Canada Yield calculated at 10:00 a.m. (Toronto time) on the third Business Day preceding the redemption date plus the Applicable Spread.

“**Government of Canada Yield**” means, on any date and with respect to any Series 1 Notes, the yield to maturity on such date, compounded semi-annually, which an assumed new issue of a non-callable Government of Canada bond denominated in Canadian dollars would carry if issued in Canada at 100% of its principal amount on such date, with a term to maturity as nearly as possible equal to the remaining term to the date that is one month prior to the Series 1 Maturity Date of such Series 1 Notes. The Government of Canada Yield will be the average (rounded to three decimal points) of the bid-side yields provided by the Investment Dealers in accordance with the terms of the Series 1 Indenture.

“**Investment Dealers**” means two investment dealers selected by the Issuer who are independent of the Issuer and are each members of the Investment Industry Regulatory Organization of Canada (“**IIROC**”) (or if IIROC shall cease to exist, such other independent investment dealer as the Issuer may select, with the approval of the Trustee, acting reasonably), which Investment Dealers shall be retained by and at the cost of the Issuer to determine the Government of Canada Yield. The two investment dealers shall be any two Agents party to the Agency Agreement.

“Redemption Price” means, with respect to a Series 1 Note being redeemed either in whole at any time or in part from time to time, (a) if the Redemption Date occurs prior to the date that is one month prior to the Series 1 Maturity Date, an amount equal to the greater of (i) the Canada Yield Price, and (ii) par, or (b) if the Redemption Date occurs on or after the date that is one month prior to the Series 1 Maturity Date, a price equal to par, together in each case with the accrued and unpaid interest thereon to, but excluding, the Redemption Date.

If less than all of the Series 1 Notes are to be redeemed, the Series 1 Notes to be redeemed shall be selected by the Trustee on a *pro rata* basis or by such other method as the Trustee shall deem fair and reasonable.

The Issuer may purchase Series 1 Notes in the open market or by tender or private contract at any price at any time and from time to time if an Event of Default has not occurred and is continuing at such time. Series 1 Notes purchased or redeemed by the Issuer will be cancelled and may not be reissued.

Series 2 Notes

The Series 2 Notes will be redeemable at the option of the Issuer prior to the Series 2 Maturity Date. The Series 2 Notes will be subject to redemption at the option of the Issuer on the applicable redemption date in whole or, from time to time, in part in increments of C\$1,000.00, at the applicable Redemption Price, as defined below, on notice given not more than 60 days nor less than 30 days prior to the date of redemption and in accordance with the provisions of the Series 2 Indenture.

“Applicable Spread” means 44 basis points.

“Canada Yield Price” means a price equal to the price of the Series 2 Notes (or the portion thereof to be redeemed) calculated to provide a yield thereon to the Series 2 Maturity Date of such Series 2 Notes equal to the sum of the Government of Canada Yield calculated at 10:00 a.m. (Toronto time) on the third Business Day preceding the redemption date plus the Applicable Spread.

“Government of Canada Yield” means, on any date and with respect to any Series 2 Notes, the yield to maturity on such date, compounded semi-annually, which an assumed new issue of a non-callable Government of Canada bond denominated in Canadian dollars would carry if issued in Canada at 100% of its principal amount on such date, with a term to maturity as nearly as possible equal to the remaining term to the Series 2 Maturity Date of such Series 2 Notes. The Government of Canada Yield will be the average (rounded to three decimal points) of the bid-side yields provided by the Investment Dealers in accordance with the terms of the Series 2 Indenture.

“Investment Dealers” means two investment dealers selected by the Issuer who are independent of the Issuer and are each members of the Investment Industry Regulatory Organization of Canada (“IIROC”) (or if IIROC shall cease to exist, such other independent investment dealer as the Issuer may select, with the approval of the Trustee, acting reasonably), which Investment Dealers shall be retained by and at the cost of the Issuer to determine the Government of Canada Yield. The two investment dealers shall be any two Agents party to the Agency Agreement.

“Redemption Price” means, with respect to a Series 2 Note being redeemed either in whole at any time or in part from time to time, an amount equal to the greater of (a) the Canada Yield Price, and (b) par, together with the accrued and unpaid interest thereon to, but excluding, the Redemption Date.

If less than all of the Series 2 Notes are to be redeemed, the Series 2 Notes to be redeemed shall be selected by the Trustee on a *pro rata* basis or by such other method as the Trustee shall deem fair and reasonable.

The Issuer may purchase Series 2 Notes in the open market or by tender or private contract at any price at any time and from time to time if an Event of Default has not occurred and is continuing at such time. Series 2 Notes purchased or redeemed by the Issuer will be cancelled and may not be reissued.

Change of Control

If a Change of Control Triggering Event (as defined below) occurs, unless the Issuer has exercised its right to redeem any Notes as described above, the Issuer will be required to make an offer to repurchase all, or any part (equal to C\$1,000.00 or an integral multiple thereof), of each holder's Notes pursuant to the offer described below (the "**Change of Control Offer**") on the terms set forth in the Indenture. In the Change of Control Offer, the Issuer will be required to offer payment in cash equal to 101% of the aggregate principal amount of Notes repurchased plus accrued and unpaid interest, if any, on the Notes repurchased, to the date of repurchase (the "**Change of Control Payment**").

Within 30 days following any Change of Control Triggering Event, the Issuer will be required to mail a notice to holders of Notes, with a copy to the Trustee, describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the Notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the "**Change of Control Payment Date**"), pursuant to the procedures required by the Indenture and described in such notice. The Issuer must comply with any securities laws and regulations that are applicable in connection with the repurchase of the Notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, the Issuer will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control (as defined below) provisions of the Indenture by virtue of such conflicts.

On the Change of Control Payment Date, the Issuer will be required, to the extent lawful, to:

- accept for payment all Notes or portions of Notes properly tendered pursuant to the Change of Control Offer;
- deposit with the Trustee an amount equal to the Change of Control Payment in respect of all Notes or portions of Notes properly tendered; and
- deliver or cause to be delivered to the Trustee the Notes properly accepted together with an officer's certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by them.

The Trustee will be required to promptly send a wire transfer comprising, or mail, to each holder of Notes who properly tendered Notes, the purchase price for such Notes and the Trustee will be required to promptly authenticate and mail (or cause to be transferred by book entry) to each such holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; provided that each new Note will be in a principal amount of C\$1,000.00 or an integral multiple thereof.

The Issuer will not be required to make a Change of Control Offer upon a Change of Control Triggering Event if another party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer that would be required to be made by the Issuer in connection with a Change of Control Triggering Event, and such party purchases all Notes properly tendered and not withdrawn under its offer.

For purposes of the foregoing discussion of a repurchase at the option of holders of Notes, the following definitions are applicable:

"**Below Investment Grade Rating Event**" shall be deemed to have occurred on any day within the 60-day period (which shall be extended during an Extension Period) after the earlier of (1) the occurrence of a Change of Control and (2) public notice of the occurrence of a Change of Control or the intention by the Issuer or BPY to effect a Change of Control, if, in either case, the Notes are downgraded to below an Investment Grade Rating by more than half, and, if there are fewer than three Rating Agencies, all of the Rating Agencies that then rate the Notes. For the purpose of this definition, an "**Extension Period**" shall occur and continue for so long as the aggregate of (i) the number of Rating Agencies that have placed the Notes on publicly announced consideration for possible downgrade during the initial 60-day period and (ii) the number of Rating Agencies that have downgraded

the Notes to below an Investment Grade Rating during either the initial 60-day period or the Extension Period is sufficient to result in a Change of Control Triggering Event, should one or more of the Rating Agencies that have placed the Notes on publicly announced consideration for possible downgrade subsequently downgrade the Notes to below an Investment Grade Rating. The Extension Period shall terminate when two of the Rating Agencies (if there are three Rating Agencies) or one of the Rating Agencies (if there are fewer than three Rating Agencies) have confirmed that the Notes are not undergoing consideration for a possible downgrade, and have not downgraded the Notes, to below an Investment Grade Rating.

“**Change of Control**” means (i) the sale of all or substantially all of the Issuer’s or the Guarantors’ assets, other than any such sale to any one or more of the Issuer, Guarantors or Brookfield Asset Management, and/or any Subsidiary (as defined in the Indenture) of any of the Issuer, Guarantors or Brookfield Asset Management, or any of their respective successors, or (ii) the consummation of any transaction including, without limitation, any merger, amalgamation, arrangement or consolidation the result of which is that any person or group of persons acting jointly and in concert, other than Brookfield Asset Management and/or one or more Affiliates (as defined in the Indenture) of Brookfield Asset Management (or any of their respective successors), becomes the owner (directly or indirectly) of more than 50% of all issued and outstanding Voting Stock (as defined in the Indenture) of the Issuer or the General Partner, measured by voting power rather than number of shares.

“**Change of Control Triggering Event**” means the occurrence of both a Change of Control and a Below Investment Grade Rating Event.

“**Investment Grade Rating**” means a rating equal to or higher than (i) “BBB-” (or the equivalent) by S&P, (ii) “BBB (low)” by DBRS and (iii) in respect of any Rating Agency other than S&P or DBRS, if applicable, a rating by such Rating Agency in one of its generic rating categories that signifies investment grade.

“**Rating Agencies**” means (1) S&P, DBRS and any other nationally recognized statistical rating organization selected by the Issuer that then rates the Notes, and (2) if any of the Rating Agencies cease to rate the Notes or fails to make a rating of the Notes publicly available for reasons outside the Issuer’s control, a nationally recognized statistical rating organization selected by the Issuer (as certified by a resolution of the Board of the Issuer) as a replacement agency for such Rating Agency, or some or all of them, as the case may be, and “Rating Agency” means any one of them.

Covenants

Limitation on Indebtedness

The Issuer and the Guarantors will not, and will not permit any of their Subsidiaries (as defined in the Indenture) to, directly or indirectly, issue, incur, assume or otherwise become liable for or in respect of any Funded Indebtedness unless, after giving effect thereto, the Funded Indebtedness of BPY, calculated on a consolidated basis, would not exceed 70% of Total Consolidated Capitalization determined as at the date such Funded Indebtedness is issued, incurred or assumed.

Limitation on Liens

Neither the Issuer nor any Guarantor will create, incur, assume or permit to exist any lien on any property or asset now owned or hereafter acquired by it, unless at the same time the Notes are secured equally and ratably with such lien, provided that this will not apply to Permitted Encumbrances. Upon being advised by the Issuer or any Guarantor in writing in an Officer’s Certificate that security has been provided for the Notes on an equal and ratable basis in connection with the grant to a third party of security and subsequently such security to the third party is released, the Trustee will forthwith release the security granted for the Notes.

Beneficial owners who are not participants in the depository service of CDS, but who desire to purchase, sell or otherwise transfer ownership of or other interests in such Global Note, may do so only through participants in the depository service of CDS.

The ability of a beneficial owner of an interest in a Note represented by a Global Note to pledge the Note or otherwise take action with respect to such owner’s interest in a Note represented by a Global Note (other than through a participant) may be limited due to the lack of a physical certificate.

Holders’ Rights

PLAN OF DISTRIBUTION

Under an agreement (the **“Agency Agreement”**) dated October 16, 2018 among the Agents, the Issuer and the Guarantors, the Agents have agreed to offer the Notes for sale, as agents of the Issuer, on a best efforts basis, if, as and when issued by the Issuer in accordance with the terms of the Agency Agreement and subject to compliance with all necessary legal requirements. It is expected that the closing date will be on or about October 19, 2018 or such later date as the Issuer, the Guarantors and the Agents may agree.

Under the Agency Agreement, Agents who participate in the Offering may be entitled to indemnification by the Issuer and the Guarantors against certain liabilities, including liabilities under appropriate securities legislation or arising out of any misrepresentation in the Prospectus or this Prospectus Supplement and any documents incorporated by reference therein, or to contribution with respect to payments which the Agents may be required to make in respect thereof.

The Agents will be acting on a best efforts basis for the period of their appointment and may be deemed to be an **“underwriter”**, as that term is defined in the securities legislation in each of the provinces and territories of Canada, of the Notes offered and sold pursuant to the Offering.

The terms for the Notes were established by negotiation between the Agents, the Guarantors and the Issuer. The Agents will receive a fee equal to C\$3.00 per C\$1,000 principal amount of Series 1 Notes and C\$2.50 per C\$1,000 principal amount of Series 2 Notes and will be reimbursed for reasonable out-of-pocket expenses incurred by them. The Agents may form a sub-agency group including other qualified investment dealers and determine the fees payable to the members of such group, which fee will be paid by the Agents out of their fees. While the Agents have agreed to use their best efforts to sell the Notes offered hereby, the Agents will not be obligated to purchase Notes that are not sold.

Subscriptions for Notes will be received by the Agents subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice.

The Notes will not be listed on any securities or stock exchange and consequently, there is no market through which the Notes may be sold and purchasers may not be able to resell the Notes purchased hereunder. This may affect the pricing of the Notes in the secondary market, the transparency and availability of trading prices, the liquidity of the Notes and the extent of issuer regulation. See “Risk Factors”. Any Agents to or through whom Notes are sold by the Issuer for public offering and sale may make a market in the Notes, but such Agents will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given that a trading market in the Notes will develop or as to the liquidity of any trading market for the Notes.

The distribution of this Prospectus Supplement and the offering and sale of the Notes are subject to certain restrictions under the laws of certain jurisdictions outside of Canada. Each Agent has agreed that it will not offer for sale or sell or deliver the Notes in any such jurisdiction except in accordance with the laws thereof.

Pursuant to policy statements of certain Canadian securities regulators, the Agents may not, throughout the period of distribution under this Prospectus Supplement, bid for or purchase Notes. The foregoing restriction is subject to certain exceptions, on the conditions that the bid or purchase not be engaged in for the purpose of creating actual or apparent active trading in or raising the price of the Notes. Such exceptions include a bid or purchase permitted under applicable by-laws and rules of the relevant self-regulatory authorities relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited during the period of distribution. Pursuant to the first mentioned exception, in connection with the Offering, the Agents may over-allot or effect transactions which stabilize or maintain the market price of the Notes at levels other than those that might otherwise prevail on the open market. Such transactions, if commenced, may be discontinued at any time.

The Notes to be issued pursuant to this Prospectus Supplement have not been, and will not be, registered under the U.S. Securities Act or the securities laws of any state of the United States and may not be offered, sold or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, U.S. Persons, except in certain transactions exempt from registration under the U.S. Securities Act and applicable U.S. state securities laws. This Prospectus Supplement does not constitute an offer to sell or a solicitation of an offer to buy any of the Notes within the United States. In addition, until 40 days after the commencement of the Offering, an offer or sale of the Notes within the United States or to, or for the account or benefit of, U.S. Persons may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in reliance on an exemption from the registration requirements of the U.S. Securities Act.

ELIGIBILITY FOR INVESTMENT

In the opinion of Torys LLP and Goodmans LLP, the Notes, if acquired on the date hereof, would at that time be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan (“RRSP”), registered retirement income fund (“RRIF”), registered education savings plan (“RESP”), registered disability savings plan (“RDSP”), tax-free savings account (“TFSA”) or deferred profit sharing plan (other than a deferred profit sharing plan to which contributions are made by the Issuer or by an employer with which the Issuer does not deal at arm’s length for purposes of the Tax Act) if they have an investment grade rating with a prescribed credit rating agency for purposes of the Tax Act and either (A) they are issued as part of a single issue of debt of at least C\$25,000,000 or (B) they are issued on a continuous basis under a debt issuance program and the Issuer has issued and outstanding debt under the program of at least C\$25,000,000.

Notwithstanding the foregoing, if the Notes are a “prohibited investment” (as defined in the Tax Act) for a TFSA, RDSP, RRSP, RRIF or RESP, the holder of the TFSA or RDSP, the annuitant of the RRSP or RRIF or the subscriber of the RESP, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Notes will not be “prohibited investments” for a trust governed by a TFSA, RDSP, RRSP, RRIF or RESP on the date hereof provided that the holder of the TFSA or RDSP, the annuitant of the RRSP or RRIF or the subscriber of the RESP, as the case may be, deals at arm’s length for the purposes of the Tax Act with the Issuer and does not have a “significant interest” (as defined for the purposes of the prohibited investment rules in the Tax Act) in the Issuer. Investors should consult their own tax advisors to ensure that the Notes would not be a prohibited investment for a TFSA, RDSP, RRSP, RRIF or RESP in their particular circumstances.

PRIOR SALES

No debt securities have been issued by the Issuer during the 12 months preceding the date of this Prospectus Supplement except for the issuance of the Original Series 1 Notes at a price of 100% of their principal amount.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Torys LLP, counsel to the Issuer and the Guarantors, and Goodmans LLP, counsel to the Agents, the following is, at the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to a holder of the Notes who acquires Notes pursuant to this Prospectus Supplement and who, at all relevant times, for purposes of the *Income Tax Act* (Canada) (the “**Tax Act**”), is or is deemed to be a resident of Canada, holds the Notes as capital property, deals at arm’s length with the Issuer and the Guarantors and is not affiliated with the Issuer or the Guarantors (a “**Holder**”). Generally, the Notes will be considered to be capital property to a Holder provided that the Holder does not hold the Notes in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure or concern in the nature of trade. Certain Holders whose notes might not otherwise qualify as capital property may be entitled to have the Notes, and all other “Canadian securities” owned by the Holder in the year and in each subsequent taxation year, deemed to be capital property by making an irrevocable election permitted by subsection 39(4) of the Tax Act. Such Holders should consult their own tax advisors as to whether this election is available and advisable, having regard to their own particular circumstances.

This summary is not applicable to a Holder (i) that is a “financial institution” (as defined in the Tax Act for purposes of the mark-to-market rules), (ii) an interest in which is a “tax shelter investment” (as defined in the Tax Act), (iii) that has elected to report its “Canadian tax results” in a functional currency in accordance with the provisions of the Tax Act or (iv) a Holder that has entered into or will enter into a “derivative forward agreement” (as defined in the Tax Act) in respect of the Notes. Such Holders should consult their own tax advisors having regard to their particular circumstances. This summary does not address the split income rules in Section 120.4 of the Tax Act. Holders should consult their own tax advisors in that regard.

This summary is based upon the facts set out in the Prospectus and this Prospectus Supplement, the current provisions of the Tax Act and the regulations thereunder in force at the date of this Prospectus Supplement, all specific proposals to amend the Tax Act and the regulations thereunder publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof and counsel’s understanding of the current administrative policies or assessment practices published in writing by the Canada Revenue Agency (the “**CRA**”). There can be no assurance that the proposed amendments will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes of law or practice, whether by judicial, governmental or legislative decision or action or changes in the administrative policies or assessment practices of the CRA, nor does it take into account tax legislation or considerations of any province, territory or foreign jurisdiction, which may differ significantly from those discussed herein.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder, and no representations with respect to the income tax consequences to any particular Holder are made. Accordingly, prospective purchasers should consult their own tax advisors for advice with respect to the tax consequences to them of acquiring, holding and disposing of the Notes, including the application and effect of the income and other tax laws of any country, province, territory, state or local tax authority.

Interest

A Holder that is a corporation, partnership, unit trust or any trust of which a corporation or a partnership is a beneficiary will be required to include in computing its income for a taxation year any interest on a Note that accrues (or is deemed to accrue) to the Holder to the end of the particular taxation year or that becomes receivable by or is received by the Holder before the end of that taxation year, except to the extent that such interest was otherwise included in the Holder’s income for a preceding taxation year.

Any other Holder will be required to include in income for a taxation year any interest on a Note received or receivable by such Holder in that taxation year (depending upon the method regularly followed by the Holder in computing income), except to the extent that the interest was included in the Holder's income for a preceding taxation year.

In acquiring a Series 1 Note, a Holder will become entitled to receive an amount stipulated to be in respect of interest for the period from, and including, July 3, 2018 (being the date of the closing of the offering of the Original Series 1 Notes) to, but excluding, the closing date of this offering ("**pre-issue interest**"). Provided that it is reasonable to consider that a portion of the purchase price of the Series 1 Note paid to the Issuer is in respect of the pre-issue interest, such amount will be deductible in computing income of the Holder for the taxation year in which it is included in computing the income of the Holder.

The Series 1 Notes are issued at a discount from their face value. In such circumstances, a Holder may be required to include an amount equal to such discount in computing income, either in accordance with the deemed interest accrual rules contained in the Tax Act and the regulations thereunder or in the taxation year in which an amount in respect of the discount is received or receivable by the Holder. Holders should consult their own tax advisor in these circumstances, as the treatment of the discount may vary with the facts and circumstances giving rise to the discount.

Any amount paid by the Issuer to a Holder as a penalty or bonus because of the repayment by the Issuer of all or a part of the principal amount of a Note before its applicable Maturity Date generally will be deemed to be interest received at that time by the Holder to the extent that such amount can reasonably be considered to relate to, and does not exceed the value at that time of, the interest that would have been paid or payable by the Issuer on the Note for a taxation year ending after the date of such repayment.

A Holder that is a "Canadian-controlled private corporation" (as defined in the Tax Act) throughout a taxation year may be liable to pay an additional refundable tax on its "aggregate investment income" for such year (as defined in the Tax Act), including amounts of interest.

Disposition

On a disposition or deemed disposition of a Note, whether on redemption, purchase for cancellation or otherwise, a Holder generally will be required to include in its income the amount of interest accrued (or deemed to accrue) to the Holder on the Note from the date of the last interest payment to the date of disposition, except to the extent that such amount has otherwise been included in the Holder's income for the taxation year or a previous taxation year. A Holder may also be required to include in computing income the amount of any discount received or receivable by such Holder. In general, a disposition or deemed disposition of a Note will give rise to a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any accrued interest and any other amount included in computing income and any reasonable costs of disposition, exceed (or are exceeded by) the adjusted cost base of the Note to the Holder immediately before the disposition.

In computing the adjusted cost base of a Series 1 Note acquired hereunder by a Holder, the cost of such Series 1 Note must be averaged with the adjusted cost base of any other Series 1 Notes then held by that Holder as capital property. Generally, a Holder's adjusted cost base of a Series 1 Note will include any amount paid to acquire the Series 1 Note but will be reduced by any pre-issue interest that is deductible in computing the income of such Holder.

One-half of the amount of any capital gain (a "**taxable capital gain**") realized by a Holder in a taxation year generally must be included in the Holder's income for that year, and one-half of the amount of any capital loss (an "**allowable capital loss**") realized by a Holder in a taxation year must generally be deducted from taxable capital gains realized by the Holder in that year. Allowable capital losses in excess of taxable capital gains may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains realized in such years to the extent and under the circumstances described in the Tax Act.

A Holder that is a “Canadian-controlled private corporation” (as defined in the Tax Act) throughout a taxation year may be liable to pay an additional refundable tax on its “aggregate investment income” for such year (as defined in the Tax Act), including amounts in respect of net taxable capital gains.

Individuals or trusts (other than certain trusts) may be subject to an alternative minimum tax under the Tax Act in respect of net capital gains realized by them.
